

Centennial Parklands

Brand new shows
written especially for
Centennial Parklands

16 July

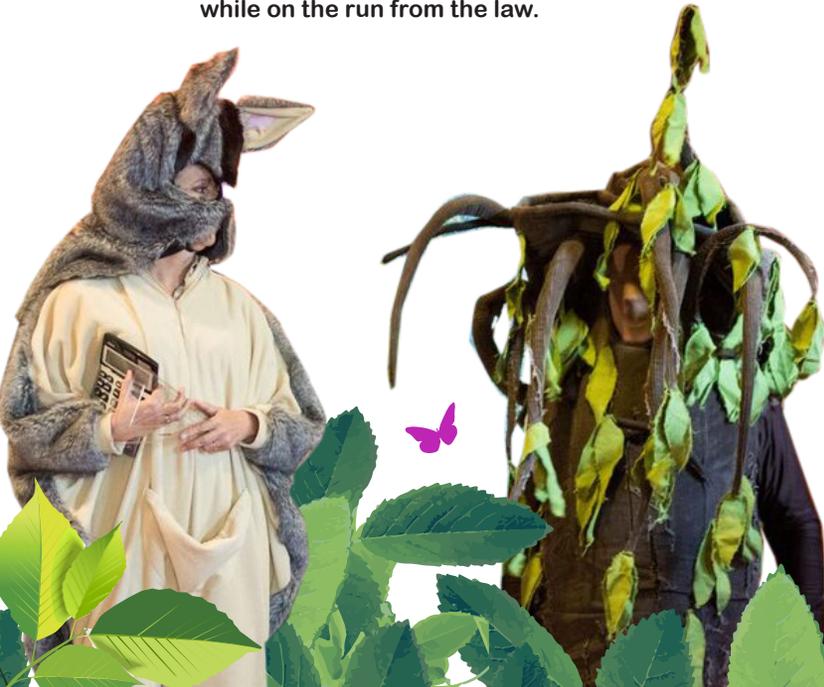

Bats - Why are we so misunderstood?

Why do they hang upside down?
Why don't farmers like them very much?
And do they really suck blood?
Join us for a Batseye view of
what it's like to be a bat.

8 October

Bush rangers

Could you survive as a bushranger?
Join some of Australia's notorious and dangerous
bushrangers and the people in their lives in this
interactive performance looking at how they
survived in the wild Australian environment
while on the run from the law.

Some Responses from our audiences:

**Please do more!!
We travelled from Central Coast
for this and our children Loved it!!**

**Educational, fun, interactive and
took us through a good portion of the
gardens. The actors were really
good with the children.**

**We had such fun and learned a lot,
while being entertained. My nine year
old loved the experience and wants to
come back next holidays.**

Children's Theatre in the Gardens

2018 SEASON

9-14 July

City Slicker Critters

- Who is the master builder of the bird world?
- Why do bees have smelly feet?
- Which native animal joins a mothers club?
- What letter do some of our possum friends like to leave on trees?

You will find out as you venture into the Royal Botanic Gardens and join in the fun with these local Critters on a one hour interactive roving performance.

3-5 October

RRRR Pirates - Escape from Rubbish Island

Children learn about the RRRR's of recycling as they help these madcap garbage heroes re-think their way out of being marooned on a desert island (that is covered in washed up litter). This interactive show helps children discover ways to Re-cycle, Re-use, Re-think and Re-purpose and explores the problem with plastic in the ocean. RRRR!!!!

20 and 21 December

I'm Dreaming of a Green Christmas

Elfis and Elvin the Christmas Elves have been sent to Australia to make preparations for Santa's visit but things don't necessarily go according to plan.

These two cheeky elves will have you laughing and singing as they combat the difficult Australian environment. An Australian Christmas Story in the Botanic Garden this school holidays.

11 and 12 October

Kylie's Calamity

Kylie the kangaroo shares her beautiful home with lots of other animals, an echidna, a snake, a goanna and a ground parrot, but some strange things start to happen. Their home starts looking like a tip! What can they do? Who is responsible?

Help Ranger Bob and the animals investigate the cause of this calamity and how to stop it.

The RRRR Pirates - Escape from Rubbish Island

Children learn about the RRRR's of recycling as they help these madcap garbage heroes re-think their way out of being marooned on a desert island (that is covered in washed up litter). This interactive show helps children discover ways to Re-cycle, Re-use, Re-think and Re-purpose and explores the problem with plastic in the ocean. RRRR!!!!

17th and 18th of July

Gliding into the Future (a play about the Squirrel Glider)

You will meet many characters, both friendly and not so friendly, that live in the world of the Squirrel Glider. It is a fun interactive show that has lots of audience participation and gets all ages thinking about what they can all do to help these creatures before it's too late. In 2017 Murray Arts engaged the Eaton Gorge Theatre Company to produce a theatrical piece that highlights the plight of these beautiful endangered animals. This project was funded by Inspiring Australia.

9 and 10 October

Kylie's Calamity

Kylie the kangaroo shares her beautiful home with lots of other animals, an echidna, a snake, a goanna and a ground parrot, but some strange things start to happen. Their home starts looking like a tip! What can they do? Help Ranger Bob and the animals to find out who is causing this calamity and find out how to stop them.
